

"The Mask" Ball

inspirational music, fine wine, fun, lavish costumes, laughter, romance, intrigue, scintillating conversation

*entertainment
food, dancing,
best company*

Don't miss it!

By now, members will have received their invitation to attend *The Mask* Ball - to be held on:

Saturday July 13

The evening promises to be a special one with the stunning Speaker's Terrace at Parliament House being the venue, catering by *Australian Gourmet Wildfoods* and music by *Fratured Vision*.

This will be a unique opportunity to indulge in a little glamour and enjoy a tropical evening and balmy sea breezes at one of Darwin's most salubrious locations.

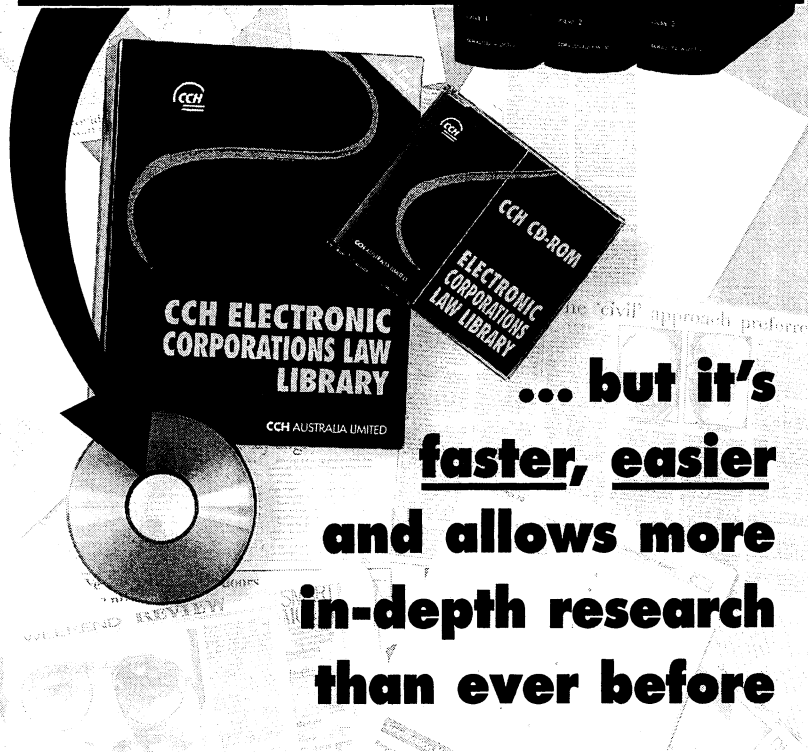

The theme of the ball is *The Mask* and guests are encouraged to let imagination run amok and come as their alter ego. *(The choice may be somewhat difficult for the schizophrenically inclined but there are no limits to creativity...)*

Guests will be greeted with champagne on arrival and will be able to sample the Territory's rare and delicate cuisine, prized by gourmets the world over. Wine will be chosen to compliment the food and there will be bar service to provide after-dinner indulgences and to lubricate the bones for dancing to the brassy rhythms of *Fratured Vision*.

Any queries should be directed to the Law Society and tickets (\$85) should be purchased before 9 July.

 **All welcome** 

It's still your practical CCH commentary, legislation and cases ...

... but it's faster, easier and allows more in-depth research than ever before

Ask yourself what you want from your company law research ...

You want to find what you need, when you need it.

You want it to be fast and, most importantly, you want it to be easy.

That's why we'd like you to consider CCH's **Electronic Corporations Law Library.**

Just think — with one CD-ROM you can search thousands of printed pages in seconds. You can move quickly and non-sequentially from section to section via hundreds of specially programmed cross-references.

Put simply, this CD-ROM will give you the power and flexibility to conduct more accurate, in-depth research in a much shorter amount of time.

You don't need to be a computer whiz either. Using the CD-ROM is just a matter of pointing and clicking with your mouse to move instantly from cross-references in the commentary to legislation or cases.

CD-ROM technology is not just the way of the future — it's the way to the best research you can do today.

For your complimentary copy of the **Electronic Corporations Law Library CD Review Kit** please don't hesitate to contact CCH Customer Support on **1 300 300 224.**
