

National ADR Directory

The Alternative Dispute Resolution Committee of the Law Council of Australia has compiled a directory summarising information on major ADR groups throughout Australia.

The directory was produced in response to a perceived lack of understanding identified by the Executive of the LCA of the differences between the various dispute resolution bodies.

The Law Council's ADR Committee conducted a survey of the fourteen major bodies that were considered key players or representatives of a group of providers or geographical region and produced this directory from information provided.

Information summarised in the directory on these groups covers their constitutions or charters, their relationship with other ADR bodies, the areas of law covered, sources of funding, activities and foci and aims and objectives.

The Northern Territory is represented in the publication through information provided by the Mediation Association of the Northern Territory (MANT).

The directory is available for consultation at the Law Society.
