## FINE WINES AND SPIRITS

### WINE

#### *100 Years of History*

In 1947 Fred Gramp planted a tree on a hill high above his families winery, the now renowned Jacobs Creek. The tree a Morton Bay fig was planted to commemorate the winery's 100th Anniversary.

It stands today a silent sentinel of all that has passed over the past 51 years. It has seen the vineyards expand and the winery develop.

Now Orlando has launched a beautiful richly flavoured Shiraz named Centenary Hill. This single vineyard Shiraz made from fruit sourced from the nearby Koch vineyard, is a luscious and powerful example of Barossa Shiraz.

The inaugural release of this new flagship label, is the essence of a Barossa wine. The end result of treatment comparable to the attention given to the preparation of a champion racehorse.

The grapes were drawn from the one Barossa vineyard and picked at the optimum moment of an excellent year, yielding the peak ripeness and flavour. The young wine was matured for more than a year in American oak hogsheads and each barrel was individually assessed and any judged not up to the exacting standard required of a new flagship label were culled. The wine was then bottled and held in Orlando's Barossa cellars for a further 2 years.

Orlando winemakers decided that the company needed a premium Barossa Shiraz as none had been produced since

1978. The winemakers regard this new wine from the 1994 vintage as the best of the best.

There is only one problem, because it has been produced from a single vineyard supply is limited, however the wine will not be exported for some time so all the stock will be available in Australia.

Buy this excellent wine to drink now or cellar at \$55.00 a bottle.

While on super premium wine Penfolds have announced that they will release 21000 more cases of its premium Penfolds and Wynn's red wines that it did last year. The 1994 Penfolds Grange however will be down by some 1500 cases to only 7100 cases (6 Bottle cases) we will advise members when the new vintage will be released.
