Conference a family affair

The Family Law Section of the Law Council is gearing up for what has become the largest regular event on the Australian legal calendar.

From humble beginnings in Hobart in 1984, the Biennial National Family Law Conference has grown significantly.

This year's conference, to be held on the Gold Coast from 26-30 September, is expected to be the largest in 20 years.

The 2004 conference will bring together many stakeholders, including representatives from government, the judiciary, academia, non-government organisations, the practising profession and many associated disciplines from across Australia and around the world.

The professional program will cover the spectrum of family law, combining innovative, up-to-date information with the opportunity to discuss the latest issues with colleagues.
