1985 NATIONAL AUUG CONFERENCE

The 1985 National Conference of the Australasian URICA Users' Group (AUUG) will be held in Perth, Western Australia, on 18 and 19 September. The programme has been designed to attract both existing users and librarians who are looking for a system.

For existing users, the Conference offers the only opportunity in 1985 to get together with colleagues and senior AWA personnel to share ideas and experiences for mutual support, and to identify and progress developments to URICA.

For those still looking for an automated solution, the Conference offers the opportunity not only to hear about and see URICA as presented by AWA, but to hear from and talk to the over 25 current URICA users. State, academic, public and special libraries have selected URICA, and the opportunity to hear their first-hand experiences, represents a small outlay for any library contemplating the very considerable investment in an automated solution.

The programme includes workshop sessions on functional areas (acquisitions, cataloguing, etc.) for users, and parallel descriptive sessions for prospective users. All other sessions are geared to both users and non-users and include:

- management issues (by type of library)
- new and proposed URICA developments
- interfaces, existing or planned, with other systems (ABN, URICANET, CSIRONET, State Library Service of Western Australia, book trade)
- cataloguing developments using URICA
- reference use of URICA
- retrospective conversion options.

As well as Perth in springtime, the Conference will provide the opportunity to tour the magnificent newly opened Alexander Library Building and the State Library Service of Western Australia's installation of URICA. Make a date to attend now!

Enquiries: Louise Jones, Secretary: AUUG, State Library Service of Western Australia, Alexander Library Building, Perth Cultural Centre, Perth WA 6000, or telephone (09) 427 3341.
