

# HOW TO TAME YOUR LIBRARY.

Even the most efficient library can be a real jungle.

But no more. Data Trek can help you cut through the tangle of managerial and clerical drudgery with high-performance, fully-supported microcomputer automation software.

Regardless of your library's size, specialty or budget, Data Trek can provide everything you need to streamline your operation. Like microcomputer and LAN hardware. Comprehensive training. Technical expertise. And outstanding online support. Data Trek makes automation

very affordable, too, thanks to a unique software design which allows you to put individual modules to work, or combine them into a fully integrated system.

Still not convinced? Then consider this: our state-of-the-art Card Data-log™ System is being used by more special librarians than any other microcomputer system in the world. And, right now, you can get a preview of exactly what it will do for you. Just fill out the coupon below

and mail it in. In return, we'll send you a free Card Datalog Sampler so that you can take your own self-running, guided tour.

If greater efficiency and productivity are what you're hunting for, check out Data Trek.

We think you'll find the difference anything but tame.

## LAST CHANCE!

**What can you do for yourself  
and your organisation  
through an LAA Study Grant Award**

**Phone the LAA on (02) 692 9233 and find out.**

Do you know of a potential advertiser for the *Australian Library Journal*? If so, let the Advertising Manager (John Levett), PO Box 252C Hobart 7001 know. A spotter's fee drawn from any income thus derived will be paid for all advertisements brought to the journal in this way. Or you could just do us a favour. That'll do for now. Any and all publicity gratefully received!
