

Celebrate with Snugglepote and Cuddlepie

Snugglepote and Cuddlepie first burst into public view in November 1918 and have never been out of print since.

The annual May Gibbs Week will be celebrated in the first week of November with many schools and libraries putting on displays. Some will also hold activities to assist the May Gibbs Foundation to acquire 'Nutcote', where May Gibbs lived for 45 years.

Many countries throughout the world have made museums of the houses of their famous authors for the particular enjoyment of children. Australia has no such museum, but in May Gibbs it does have an author worthy

of such a tribute. She was the first to give Australian children a fantasy world of their own. Her bush babies and bad banksia men brought, and still bring, a rich fairyland as close as the bush is to their back doors.

'Nutcote' was specially designed for May Gibbs by the well-known architect B.J. Waterhouse. From her lovely studio overlooking the harbour at Neutral Bay she wrote and illustrated most of her books and the long-running cartoon strip Bib and Bub.

For more information on May Gibbs Week contact The May Gibbs Foundation, PO Box 500 Drummoyne NSW 2047; telephone (02) 816 1612.
