### 1991 Strategic plan

Council decided that rather than debate each of the papers, a working party comprising the Western Australian General Councillor and the New South Wales General Councillor should crystallize into one paper the issues arising out of the twelve strategic papers. It was also agreed that the Executive Director should consider the resource implications of programs in light of the strategic issues and prepare a paper for the November meeting of Council. The President is to write a paper on the role of the president. ■
