

Co-ordinating Korean collecting

Librarians and academics met on 13 March at the National Library of Australia to discuss Korean language collecting. A copy of the record of the meeting and resolutions is available on the National Library of Australia server at <http://www.nla.gov.au/dnc/korea/korea.html>.

It was agreed that a Korean Working group be set up to follow through the outcomes of the meeting. Better co-ordination of limited resources is the primary aim. Korea is increasing in importance to Australia, being a major trading partner and with closer cultural, political and social links.

Copies of these documents can also be obtained by contacting Marie Sexton on telephone (06) 273 4327, or via fax (06) 262 1519. ■
