

ALIA Merit Award

The ALIA Merit Award is a State-based award. It was introduced in 1992 by General Council to replace the 'Letter of recognition' which was last awarded to Ian Stewart for his contribution to the improvement of library services in Queensland for people with disabilities, presented in 1993.

Merit Awards may be presented by a Branch Council to recognise a significant, special or specific service to a library or libraries or ALIA; or the promotion or development of libraries or library service; or for demonstrating such service over a period of time.

More than one award may be made in any year, the key to the receipt of the award is the need for the service to have been *significant, special and specific*. This is not a routine award to people who are retiring or finishing their term of office. The award is open to current members of the Association.

If you know of anyone deserving of a Merit Award, contact your branch.

Further information on Merit Awards is available from your Branch or from the National Office. ■
