

Move into management

with the APESMA MBA

Enrolments in Australia's premier MBA for technology professionals are now open for study commencing in Study Period 2, 2004.

The APESMA MBA (Technology Management) is specifically designed for technology and information professionals wanting to make the transition to management, and has the following unique features:

- subjects are chosen based on market need, through regular consultation with corporate leaders.
- faculty is not limited to one university, but includes academics and industry professionals from throughout Australia.
- course materials are purpose-built to meet the needs of working technology professionals, and to maximise the application of learning to the workplace.
- the student body comprises working managers from all over the world, learning together as part of a global e-community.

As the APESMA MBA is offered entirely by distance education, it is ideal for working professionals.

ALIA member discounts

ALIA members are entitled to a ten per cent discount on fees for the APESMA MBA, Graduate Diploma and Graduate Certificate in Management. Details of the MBA fees can be found on <http://www.mba-distance-learning.com>.

Information sessions are being held in most capital cities during April and May. To register, or to find out more, please e-mail alia@apesma-ed.com, call 1300 85 33 77, or visit <http://www.mba-distance-learning.com>. ■

Crown copyright under review

The Copyright Law Review Committee is reviewing the law covering Crown copyright. The review springs from the recommendation of the Review of Intellectual Property Legislation under the Competition Principles Agreement (the Ergas Committee) that the government should not be provided with preferential treatment under the *Copyright Act*.

Key issues are:

- whether the present law governing crown copyright is appropriate;
- whether as a matter of public policy the government should own copyright in material produced by the executive, judicial and legislative arms of government; and
- what are options for reform, legislative or otherwise, and the costs and benefits of those options.

Users of information should note that the government owns a wide variety of materials, including histories, biographies, maps, promotional brochures, well beyond the usual scope of a government publications library collection.

The CLRC issues paper on Crown Copyright is available at <http://www.law.gov.au/clrc> and submissions are due on 26 March. ■

SPYDUS

Library Solutions

POWER AT YOUR FINGERTIPS

- Powerful indexing and retrieval tools offer highly flexible and super-fast search capabilities to both library staff and customers.
- Web-centric **SPYDUS** empowers borrowers to access library services via the internet, boosting staff productivity.
- Backed by library professionals who understand technology, libraries and customer service.
