ALIA's annual NAC meetings are a great opportunity for members to have a say about your professional association and the important issues affecting our industry and our future. Final dates for 2013 are:

NT

5 OCTOBER

Contact: groups@alia.org.au

TAS

18 SEPTEMBER

Contact: Margie Anderson, margie.anderson@alia.org.au

SELF MADE

(RMIT inspired)

RMIT's Master of Information Management will equip you with the latest technological and professional skills to tackle the challenge of management of information.

"One of the best parts of the program is the practical nature of the courses. The use of local case studies allowed me to apply skills to real life problems while the industry placement gave me the opportunity to intern in a small alternative library in the USA.

I am particularly interested in digital technologies and special collections and hope to explore one or both of these areas."
