

SALLY BEASLEY WINS ALIA PRIZE

Congratulations to Sally Beasley on winning the ALIA Student Award, given to the University of Canberra student graduating with the highest grade point average in the Master of Information Studies in Librarianship. Sally (centre of picture) received her award from ALIA Director of Learning Judy Brooker (second from right), after the University of Canberra's graduation ceremony at Parliament House on 11 April.

Sally works as a government lawyer in Canberra and completed the University's Master of Information Studies program on a part time basis over two years. Sally says she is looking forward to applying what she has learned during

the program, particularly in relation to the information and knowledge management needs of modern organisations in a public administration context.

Sally is also the joint winner of the John Balnaves Prize for her work in web information architecture, an award she shares with Holly Payne.

Also pictured (left), Dr Tracy Ireland (Assistant Professor of Cultural Heritage and Head of Discipline, Humanities), Associate Professor Sally Burford, and (right) Dr Stuart Ferguson (Course Convenor of the Master of Information Studies).

Easily integrated into existing RFID and EM sites iLoan™ self loans units can help improve your productivity by having patrons checking out their own items effortlessly.

Great ergonomics and user friendly animated graphics ensure your patrons will continue to use the iLoan™ range of self service machines now and in the future.

Units are pictured with MIFARE® readers. Barcode scanners fitted as standard.

Come and see us in September at the ALIA 2014 National Conference, Booth 53.
